

Wireless Metro Ethernet

Highly Scalable and Wireless Broadband

First Communications Wireless Metro Ethernet provides your business with an affordable and scalable fiber network through a fixed broadband spectrum. With 100% diverse “last mile” access licensed spectrum, First Communications can support your mission critical applications quickly – with no fiber installation - by delivering high-performance connectivity.

Scale your business for growth with a quick to implement solution that supports multiple network services and delivered over High Speed Broadband connections. Connected directly to the First Communications Fiber network it also meets business continuity and network redundancy requirements, complementing your existing network.

Features

- FCC licensed spectrum frequencies
- Each customer is on a secure, private connection
- Supports MPLS, Layer 3 and Layer 2 customer solutions
- Integrates seamlessly with voice solutions including Cloud IP PBX, SIP and PRI

Benefits

Remote Location?

First Communications Wireless Metro Ethernet gives you high-bandwidth with land-based fiber is unavailable.

Need More Bandwidth?

Cloud applications need more bandwidth. We offer access speeds up to 250 Mbps.

The First Communications Five-Star Service Difference

We are **100% committed** to providing you with the highest level of customer service in the industry. To accomplish this, we provide you with a team of dedicated, highly trained and empowered specialists to ensure a five-star service delivery experience.

Here's how we are different:

We provide a Customized Solution

Your dedicated, highly experienced Sales Engineer will perform a thorough assessment of your current environment and service needs, and will work with you to design a customized solution.

You get a dedicated Project Coordinator and a smooth implementation

Your dedicated and experienced Project Coordinator will guide you through the implementation process, so that your custom designed solution is installed in a seamless and professional manner.

You get Five-Star support from a dedicated Client Relations Manager

After installation, your dedicated Client Relations Manager (CRM) will serve as a single point of contact. As your business and network needs grow, your CRM can assist with configuration changes, the addition of new locations, or any other support you might need.
