2.10. Tax and Fee Adjustments

2.10.1. When any municipality, or other political subdivision, local agency of government, or department of public utilities imposes upon and collects from the Company an occupation tax, license tax, permit fee, franchise fee or regulatory fee, such taxes and fees shall, insofar as practicable, be billed pro rata to the Company's Customers receiving service within the territorial limits of such municipality, other political subdivision, local agency of government.

2.10.2. The Company may adjust its rates and charges or impose additional rates and charges on its Customers in order to recover amount it is required by governmental or quasi-government authorities to collect from or pay to others in support of statutory or regulatory programs. Examples of such programs include, but are not limited to, compensation to payphone service providers for use of their payphones to access the Company's services.

2.11. Method for Calculation of Airline Mileage

2.11.1. The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) coordinates of the serving wire centers associated with the Company's POP locations. The method for calculating the airline mileage is obtained by reference to AT&T's Price Guide F.C.C. No. 10 in accordance with the following formula:

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

where V1 and H1 correspond to the V&H coordinates of City 1 and V2 and H2 correspond to the V&H coordinates of City 2.

Example:

	<u>V</u>	<u>H</u>
City 1	5004	1406
City 2	5987	3424

$$\sqrt{\frac{(5004 - 5987)^2 + (1406 - 3424)^2}{10}}$$

The result is 709.83 miles. Any fractional miles are rounded to the next higher whole number; therefore, the airline mileage for this example is 710 miles.

3. DESCRIPTION OF SERVICES

3.1 Computation of Charges

3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and time of day of the call. The total charge for each completed call may also be dependent only on the duration of the call, i.e. a statewide flat rate per minute charge. The variable measured charge is specified as a rate per minute, which is applied to each minute. All calls are measured in increments as set forth in the Rates Section of this Price Guide. All calls are rounded up to the next whole increment.

3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal (V & H) coordinates for each exchange and the airline distance between them will be determined according to industry standards.

3.1.3 Timing begins when the called station is answered and two-way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. The Company will not bill for uncompleted calls.

3.2 Level of Service

A Customer can expect end to end network availability of not less than 99% at all times for all services.

Interexchange Services

3.3 Billing Entity Conditions

When local exchange telephone companies or others perform billing functions on behalf of the Company or its intermediary, the payment of charge conditions and regulations of such companies and any regulations imposed upon these companies by regulatory bodies having jurisdiction apply. The Company's name and toll-free telephone number will appear on the Customer's bill.
