

MaX UC Desktop

Installation Guide

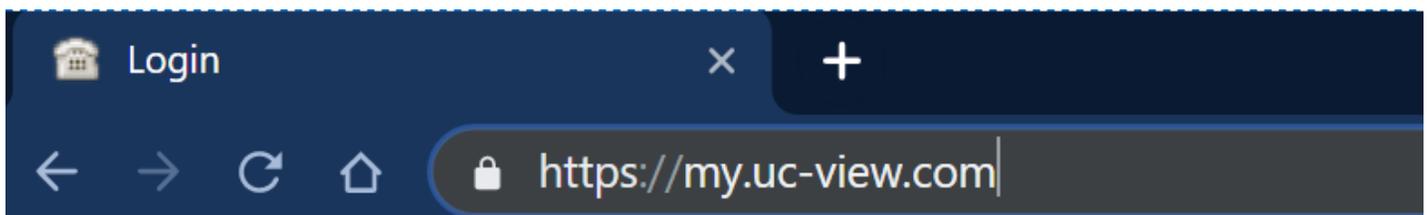

Updated Version 05.04.20

Please Note: The screen shots presented in this document are native to Windows operating systems. The Mac OS process is similar but may look slightly different and action buttons may not appear in the same locations.

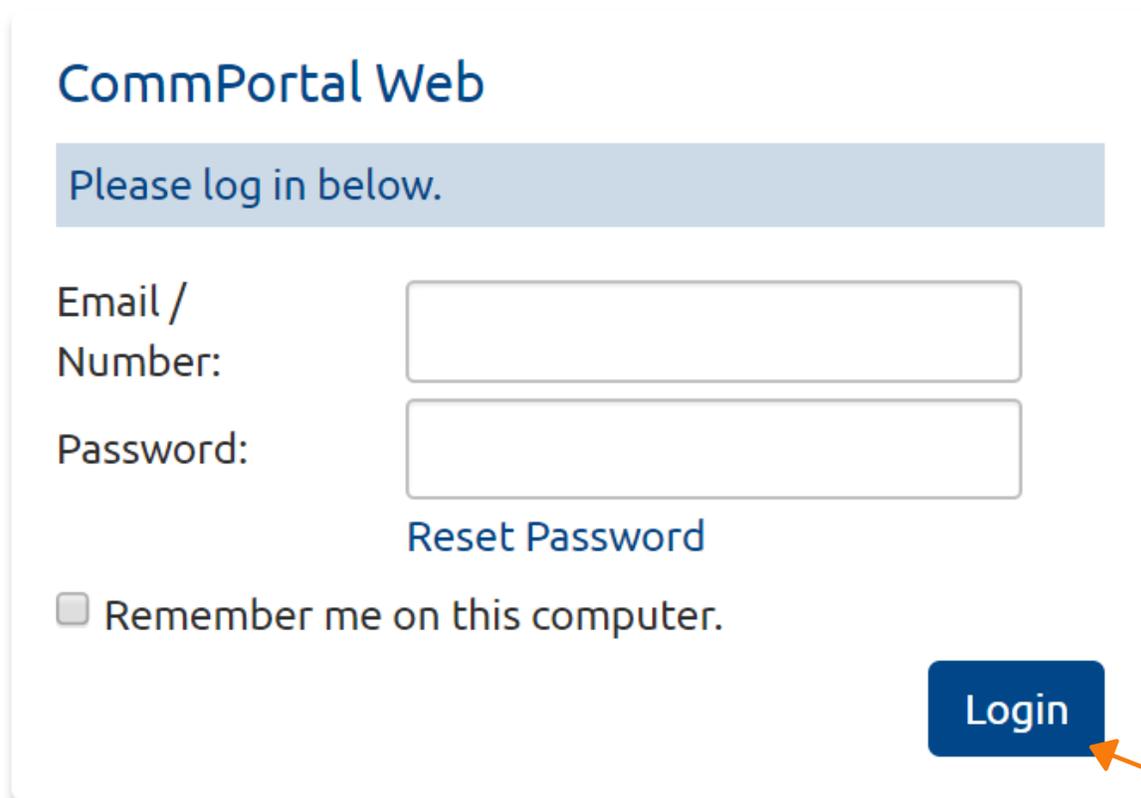

To download MaX UC Desktop App, simply follow the steps outlined below:

INSTALLATION STEPS

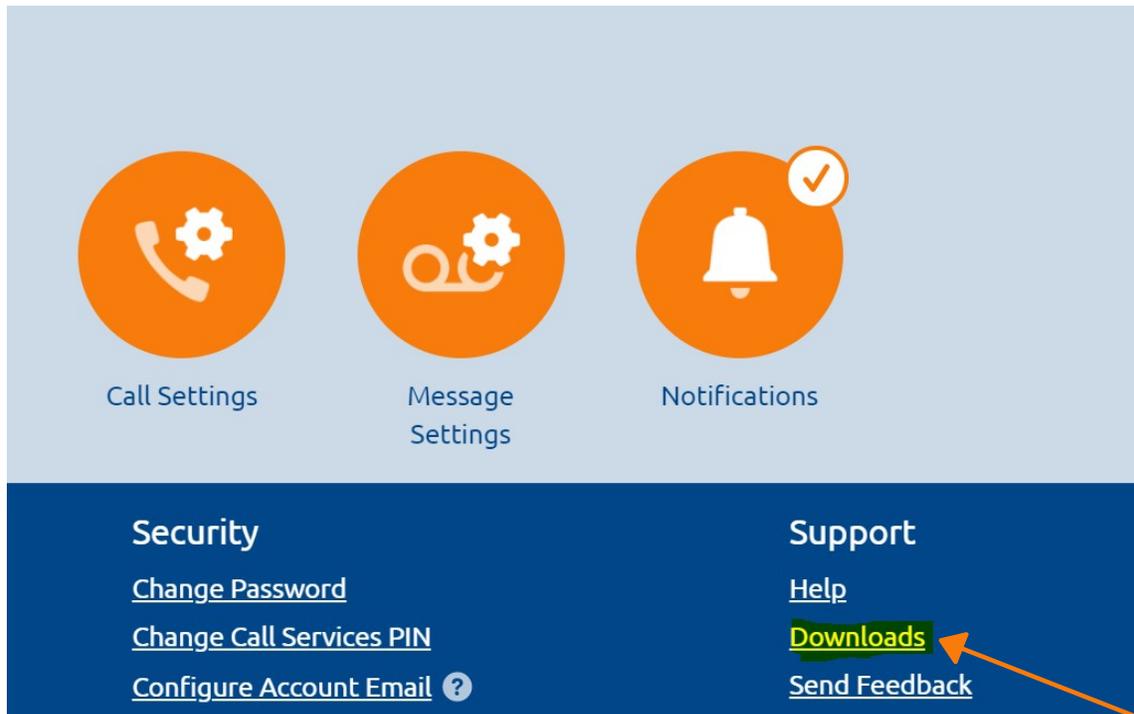

1. Open CommPortal: Navigate to **https://my.uc-view.com** from any web browser

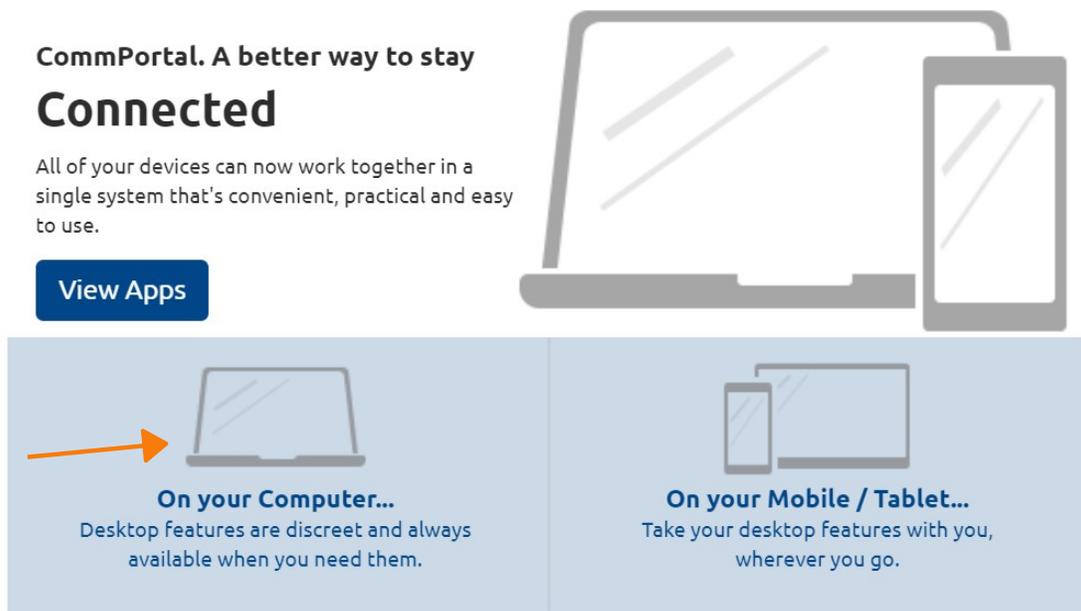

2. Login using your 10-digit phone number and CommPortal password. Please contact your administrator or call us at 800-860-2934 if you have issues logging in

A screenshot of the CommPortal Web login page. The page has a white background with a light blue header. The header contains the text "CommPortal Web" in a large, bold, blue font. Below the header, there is a light blue box with the text "Please log in below." in a blue font. Underneath this box, there are two input fields: "Email / Number:" and "Password:". Below the "Password:" field, there is a blue link that says "Reset Password". At the bottom left, there is a checkbox labeled "Remember me on this computer." At the bottom right, there is a blue button with the text "Login" in white. An orange arrow points to the "Login" button.

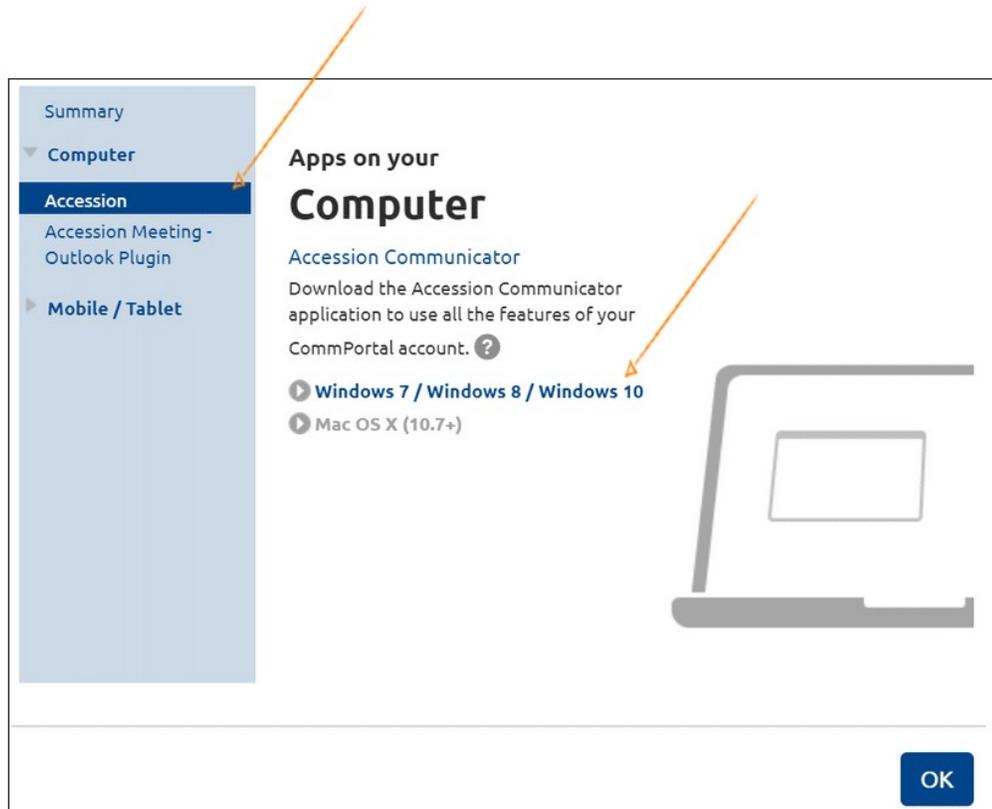

3. Once logged in, click 'Downloads' on the bottom right hand corner

4. A new window pops up as shown below. Please click 'On your Computer'

5. Select the "Accession" application, then click the highlighted link for the appropriate PC operating system software to start the download

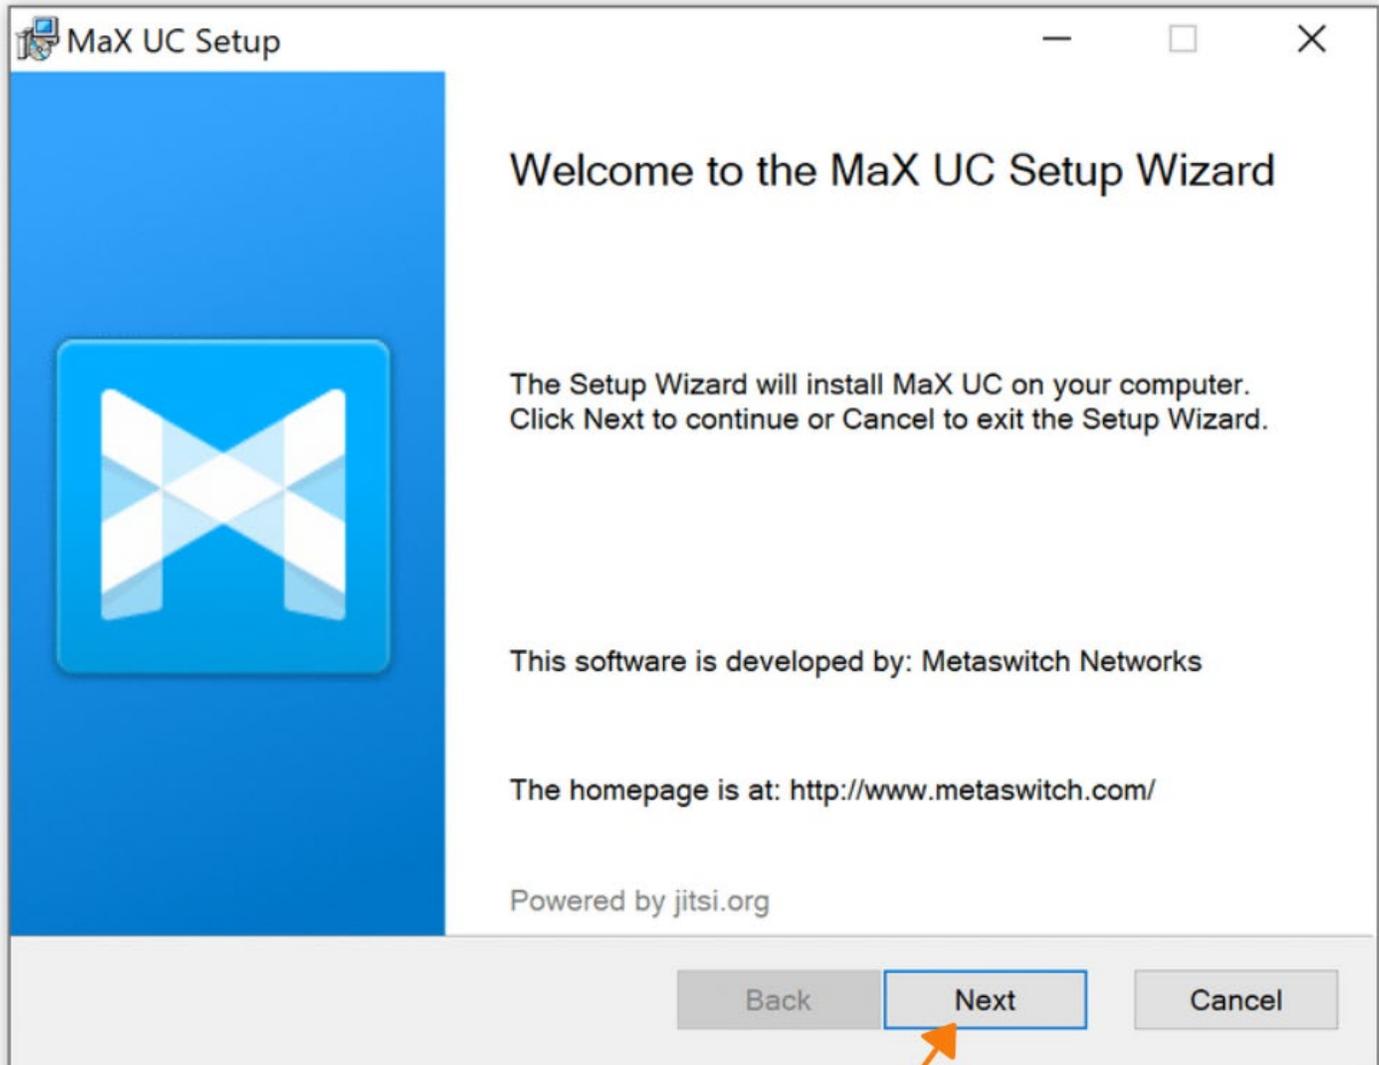

6. Your computer may perform a security check prior to downloading and present a Window with a security warning. The appearance of these boxes will depend upon the browser and PC operating system (OS) you are using. Click 'Save' if asked (Note - Steps may vary based on web browser used)

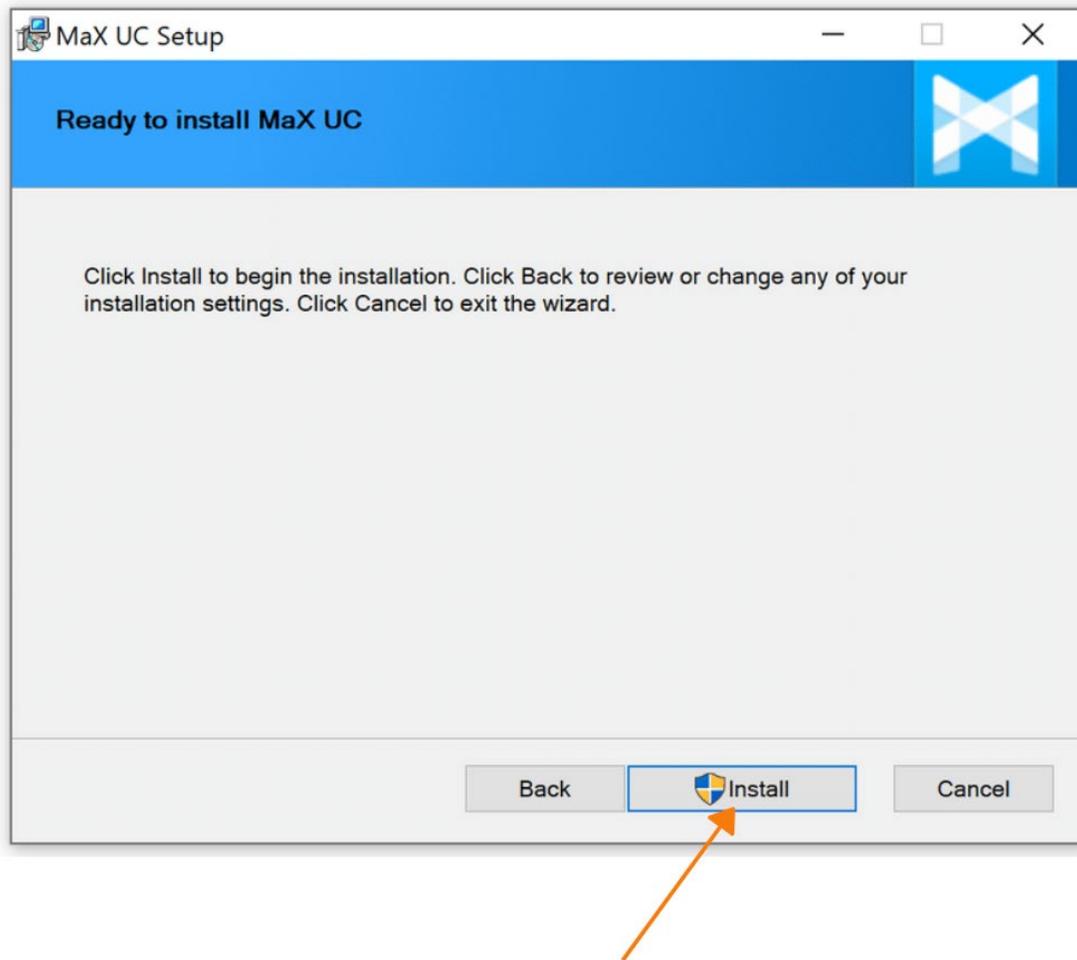

7. An executable installation file will be downloaded for you to run. Click on the file to install

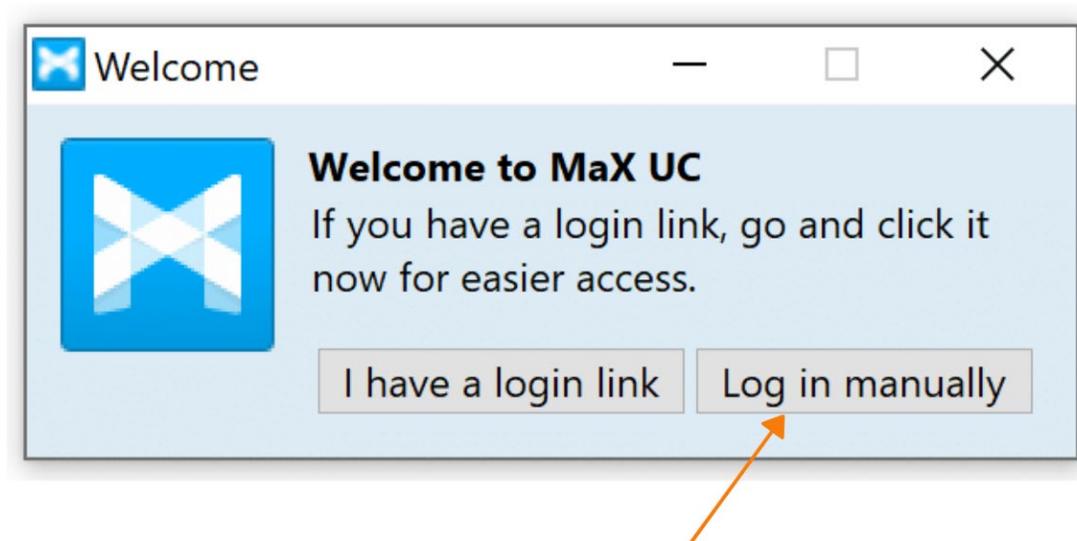

8. Next, you will see a setup window as shown below. Click 'Next' until you see "Install" button

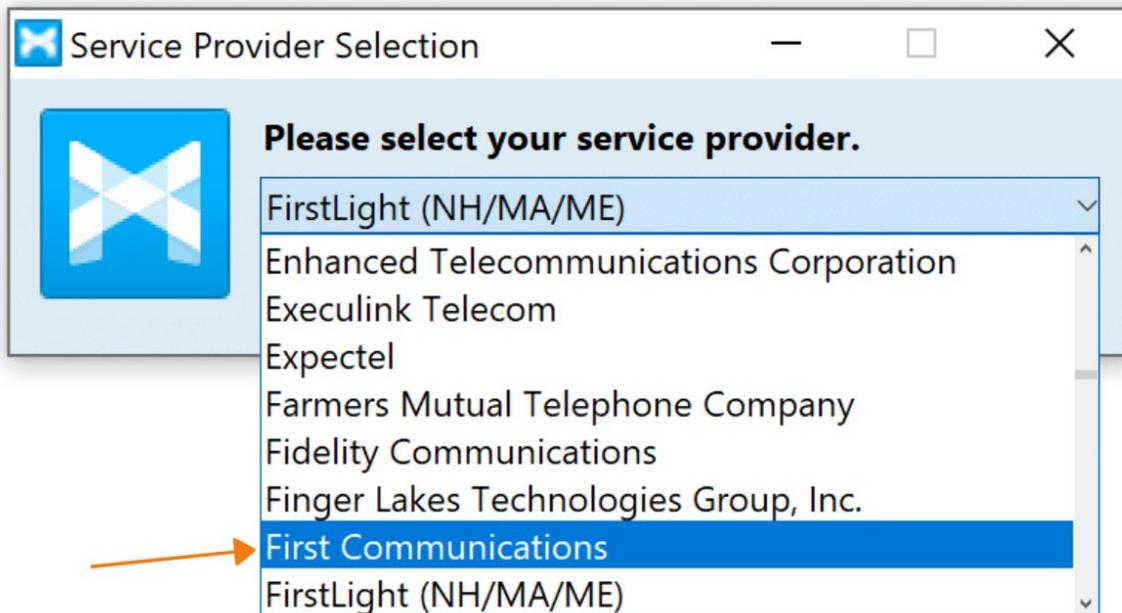

9. Click 'Install'. Your company firewall may block the installation and ask for admin login/password. If asked for admin password, please contact your local network administrator

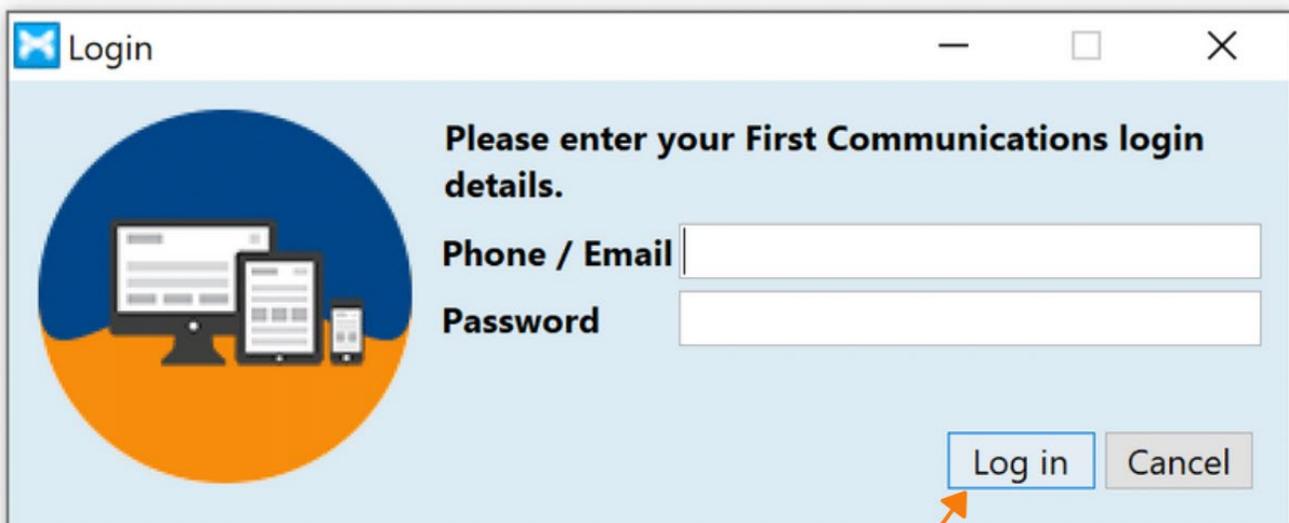

10. Click ' Finish' setup and a new window pops up. Click 'Log in Manually' to proceed

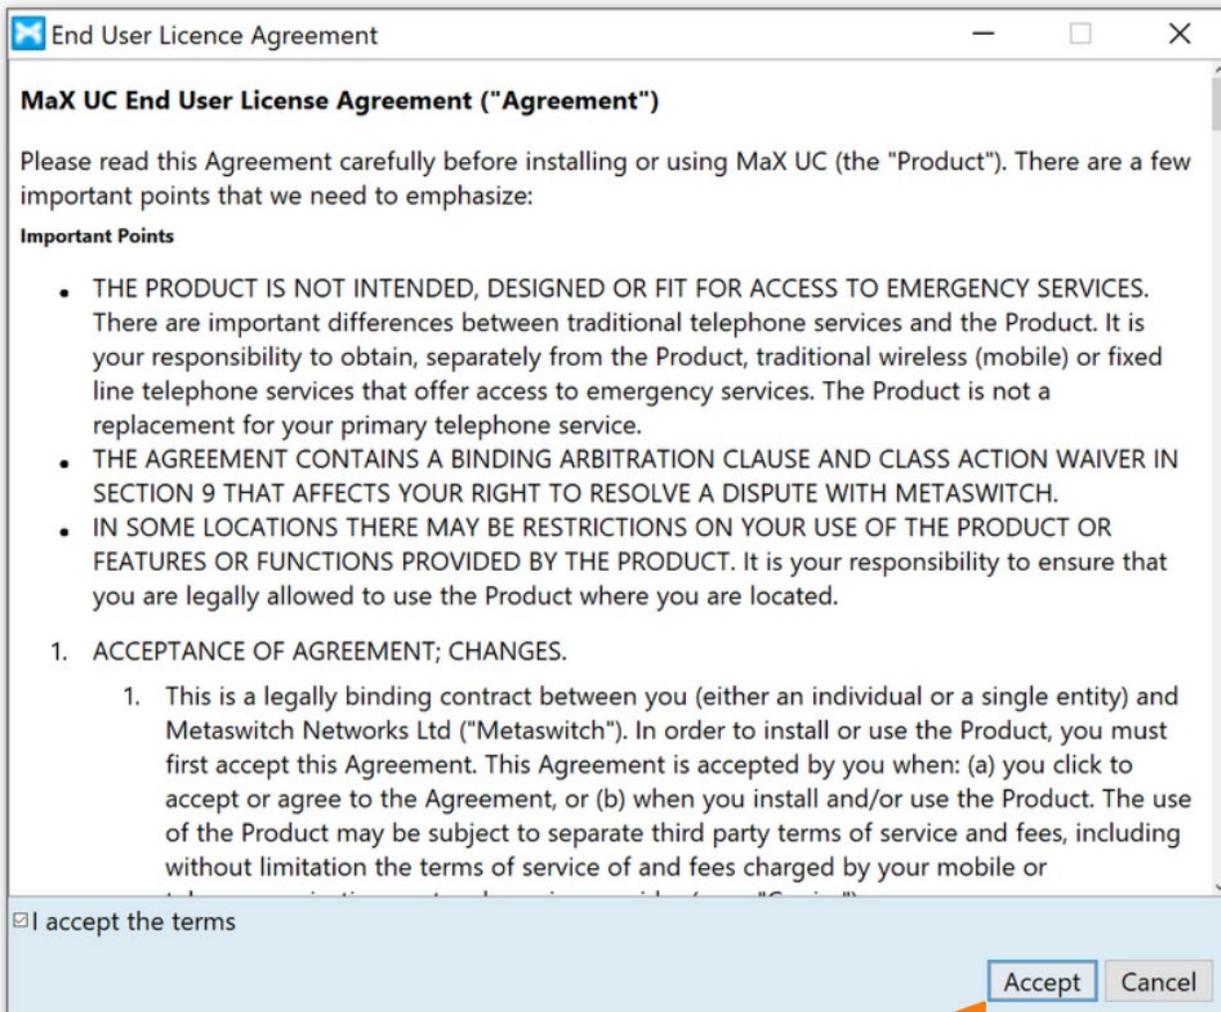

11. Please select First Communications from the dropdown Menu and hit 'OK'

12. Please enter your 10-digit phone number, same password as CommPortal and hit 'Log in'

13. First time you login, you have to accept terms and conditions. Tick the checkbox below and hit 'Accept'
