

Businesses have the ability to send and receive text messages using office phone numbers without sharing their personal cell phone numbers. MaX UC SMS is an add on feature to our UCaaS offering and helps businesses to respond to texts through desktop or mobile app while you are on your cell phone.

**KEY HIGHLIGHTS**

- Text messages can be sent and received through the MaX UC Desktop / Mobile Apps
- Individual user office numbers are used and not their personal cell phone number
- Text messages can be sent to internal employees as well as external clients
- Easy to add new numbers
- Can send URL links as a text message to share important web links or images on the web
- No MMS-picture or group text supported currently
- User Portal to monitor monthly text message usage
